PROFESSIONAL SUMMARY

Frontend Web Developer and Software Engineer with hands-on experience building responsive, accessible web applications using React.js, JavaScript (ES6+), HTML5, and CSS3. Proficient in component-based architecture, REST API integration, and modern UI/UX design principles including CSS Flexbox and Grid. Currently pursuing a Master of Computer Applications (MCA) at JG University. Seeking an internship or entry-level frontend / software engineering role to contribute to real-world product development.

TECHNICAL SKILLS

Frontend Development	React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Web Design, CSS Flexbox, CSS Grid, DOM Manipulation, REST API Integration
Tools & Technologies	Git, GitHub, VS Code, Chrome DevTools, npm
Programming Basics	Python (Fundamentals)
Soft Skills	Problem Solving, Attention to Detail, Team Collaboration, Time Management, Self-Learning, Adaptability

PROJECTS

Currency Converter

HTML5 · CSS3 · JavaScript · REST API

- Engineered a browser-based currency converter integrating a live exchange rate REST API, enabling real-time conversion across 150+ currencies.
- Built a mobile-first, fully responsive UI with progressive enhancement ensuring cross-device compatibility.
- Implemented robust client-side input validation and error handling, eliminating user-facing failures during testing.
- Optimised DOM manipulation logic to minimise reflows and deliver smooth performance without external libraries.

Cafe Website Interface

HTML5 · CSS3 · JavaScript · Flexbox · Grid

- Designed and developed a multi-section production-quality website featuring Menu, Gallery, About, and Contact pages.
- Implemented pixel-perfect responsive layouts using CSS Grid and Flexbox, ensuring consistent rendering across all viewport sizes.
- Enhanced UI with CSS animations, scroll transitions, and a cohesive brand design system (typography, spacing, color palette).
- Structured semantic HTML5 markup to improve SEO performance and meet WCAG accessibility standards.

Personal Portfolio Website

HTML5 · CSS3 · JavaScript · React.js

- Built a fully responsive personal portfolio to showcase technical skills and live projects to potential employers and recruiters.
- Integrated a functional contact form with client-side validation alongside social media profile links.
- Applied SEO best practices including semantic HTML markup, optimised image assets, and descriptive meta tags.
- Deployed a reusable component architecture in React.js to ensure maintainability and ease of future updates.
